NOTICE

February 9, 2010

Catholic Charities - Behavioral Health Services at St. Luke's Center (formerly known as St. Luke's Addiction Recovery Center) is pleased to announce that we have recently been awarded a 5-year SAMHSA (Substance Abuse & Mental Health Services Administration) grant that will help us to treat more individuals diagnosed with HIV/AIDS. St. Luke's is a 30-90 day residential substance abuse/dual diagnosis treatment program providing treatment to adults suffering with alcohol/drug/mental health problems.

These SAMHSA grant funds allow St. Luke's to treat approximately 63 clients a year, with a rotation of 9 new clients every 45 days. We will begin receiving admissions in March 2010.

This grant will act as an enhancement to our agreement with Mercy Hospital and is in addition to the bed space we currently have reserved for HIV/AIDS individuals. The procedure to access treatment remains the same as we will continue to coordinate service availability and treatment through Mercy Hospital.

St. Luke's thanks Mercy Hospital for their continued support in assisting individuals diagnosed with HIV/AIDS. Through this unique grant opportunity, we look forward to working with everyone in the treatment community to assist many more HIV/AIDS clients on their road to recovery.

If you have any questions feel free to email me at chazel@ccadm.org or give me a call at 305-795-0077, ext 124.

Thank you.
