

ATTENTION ALL ADAP CLIENTS WITH MEDICARE PART D

On January 11, 2011, AIDS Drug Assistance Program (ADAP) dollars will begin to count toward your True Out-of-Pocket (TrOOP) costs with your Medicare plan. This is great news for you because it will allow for the ADAP contribution you receive to count toward your Medicare expenses. This will increase your access to your Medicare benefits.

With this new TrOOP benefit to ADAP clients, you will be required to utilize your Medicare Part D plan for prescriptions beginning January 1, 2011. It will be necessary for you to fully exhaust your initial Medicare Part D benefit and hit the Donut Hole before ADAP will cover any medications for you. With this in mind, we strongly recommend that you review your Medicare Part D plan options to ensure you select the best policy to serve your specific needs in 2011.

You will be allowed to remain in ADAP during the time you are accessing Medicare Part D, as long as your enrollment remains current. Once you reach the Donut Hole in your plan, you may return to ADAP with appropriate proof that the Donut Hole in your plan has been reached (pharmacy documentation, Medicare documentation). ADAP will pickup coverage of your medications and coordinate your pharmaceutical benefits.

If you are unsure of the details of your Medicare Part D plan/policy, or the options available to you, please contact your case manager or the Medicare website at: www.Medicare.gov. You may also contact your local Medicare office to arrange a visit with a representative or receive assistance by phone.

Thank you for your attention to this notice and should you have any further questions, please feel free to contact your local ADAP Office.
