

Every Wednesday from 12:00 pm to 1:30pm the Pastoral Care team of Jackson Memorial Hospital offer session of Spiritual Guidance for our S.F.A.N. clients. The group is facilitated by our Chaplains Rev. Hector Figueroa in Spanish, and Rev. Elsyé Renaud in English; (she also can assist in French and Creole if needed). The purpose of this support group is:

- To create a safe environment giving opportunity to talk about issues that are of concern (confidentiality)
- To help clarify and explore thoughts and feelings that could prevent from leading a fuller life even with their diagnosis and recovery status
- To help focus on finding new perspectives, discover their potential and create a different life for themselves by making choices that are for their highest good
