

## **AIDSWATCH 2012 • SAVE THE DATE**

**AIDS** Watch **April 23-24, 2012**  
**Washington, DC**

Join hundreds of PLWHA and HIV advocates as we visit our elected representatives on Capitol Hill and ask them to help us end AIDS in America and the world. We know now we can do it! AIDSWatch is the largest constituent-based Federal HIV/AIDS advocacy and education event of the year. People Living With HIV/AIDS, our families, friends, care providers, and other advocates visit Capitol Hill to tell the Senators and Reps who work for us what living with HIV is like and what 1.2 million people living with HIV/AIDS in the United States need to live well and bring the epidemic to an end.

**We know now we can end it!**  
**Together we can!**
