We operate a 46 unit facility, close to the Port of Miami, downtown Miami, and the Garment District where employment opportunities are at a premium. This location is ideal to assist those re-entering society.

## A Sober House That Everyone Can Call Home

- All dorms are tastefully decorated and ready for immediate occupancy
- Clients entering our Sober Living facility only need to bring their clothing
- We can provide help with the transition to our "house" by providing toiletries such as: toothbrush and toothpaste, bath soap, shampoo, shaving supplies, and more...

## Addiction and Dual Diagnosis

Our Clients are unique, but they share common challenges.

The solution they find is in the relationships formed early in their recovery which last a lifetime.

Clients at our facility come from all types of treatment programs: courts, probation, VA hospitals, mental health providers, and homeless shelters.

## Recovery Affects Everyone

Just as addiction affects everyone in the addict's life, recovery also requires everyone in the sober person's life

Changes in an alcoholic or addict's life are re-enforced by our extensive and multi-level transitional recovery process, which helps each resident's progress through the stages of recovery

This process includes helping each client find a balance among the 12 steps of recovery, relapse prevention, work, educational, and social activities.

## Amenities

- Common Room
- Cable TV
- Internet Access
