V. Standing Business

▪ ***Oral Health Care Data: Code D0150***

Members discussed the frequency at which clients received code D0150, a comprehensive exam, over Fiscal Years 14 to 17. Code D0150 can be used for new clients, clients out of care for three or more years or those who had a significant change in health status.

▪ ***Outcome Measures***

The subcommittee reviewed the outcome measures (copy on file) and discussed how “new clients” should be defined. Outcome measure one (1) will be broken into three measures:

- “Overall increase in the number of new clients as defined by a new CIS number.”
- “Overall increase in the number of clients who have not received dental service in the past year.”

- “Overall increase in the number of clients who have not received dental service in the past three years.”

Indicator 3a which lists utilization reviews should have code D4355 added.

Staff will revise the measures and the subcommittee will finalize them at the next meeting.

▪ ***Oral Healthcare Service Review Tool***

Modifications were made to the review tool (copy on file); on page one (1) questions three (3) and four (4) should have, “...or a current (not more than 6 months before DOS) Ryan White Certified Referral,” added to the end.

Motion to accept the Oral Healthcare Service Review Tool, with the changes noted above.
