The Ryan White Program

The Ryan White HIV/AIDS Treatment Extension Act of 2009 funds medical care and treatment for People Living With HIV/AIDS (PLWHA) and establishes services to improve availability of care for PLWHA and their families who would otherwise have no access to health care. The Florida legislature also provides general revenue funds for limited services.

The Miami-Dade HIV/AIDS Partnership is the official county planning board for several public programs providing medical and social support services to Miami-Dade County residents living with HIV/AIDS.

Membership is open to people living with HIV/AIDS and other individuals.
